1/2"

1/2" Overlay Cabinetry

1/2" overlay literally means that all the drawers and doors of a cabinet run will extend half an inch over the frame. This is a classic styling that offers a more traditional look showing more of the face frame, with a 1-1/4" reveal of the frame between cabinets.

HAND-WIPED GLAZES ON STAIN

Glazing is an artistic, hand-finished process that adds depth and dimension to stains and paints. This technique uses a special finish glaze that is applied over the entire stained or painted surface, then hand wiped to give it a subtle hued finish creating hang-up of varying tones in detail areas. Our stain glazes include chocolate, a dark brown glaze and shadow, a black glaze.

HEIRLOOM STAIN FINISHES

The Heirloom procedure gives the appearance of time-worn stained and painted cabinets. Prior to finishing, doors and drawer fronts receive random hand-applied distress marks, corner and edge over-sanding and rub through. This finish technique will differ from one door to the next, giving each a unique look.

PAINT FINISHES

Select a paint for your entire kitchen, or choose it as an accent color for an island or a cook center. Various shades of white and neutral colors are popular for full kitchens, while vibrant colors tend to be selected for accent pieces. WF Cabinetry offers an attractive palette of fashionable and classic colors along with our YourColor™ Custom Paint Matching program to create endless options to match any preference.

FINISH SAMPLES

When designing your space, order a color block or door sample to see how your favorite finish looks on a specific type of wood.*

Actual product colors may vary from those shown. For actual finish samples, contact your WF Cabinetry dealer or representative. See price book for available door styles. * Please note that wood naturally expands and contracts with seasonal changes in temperature and humidity. As wood moves at joints, this movement will be more apparent with painted finishes than stained finishes and will look like a small fracture or seam at the joint. This is a natural characteristic of painted finishes on wood.

HAND-WIPED GLAZE ON PAINT

Glazing is an artistic, hand-finished process that adds depth and dimension to stains and paints. This technique uses a special finish glaze that is applied over the entire stained or painted surface then hand-wiped to give it a subtle hued finish creating hang-up of varying tones in detail areas. Our paint glazes range in color from white (frost) to grey (slate) and dark brown (chocolate) to black (shadow).

BRUSHED GLAZES

Brushed finishes are an all over hand wiped glaze with subtle brush strokes applied on the entire door, drawer and cabinet frame. The brushed glaze provides a unique appearance to each piece and will vary from one surface to the next.

CUSTOM COLOR

Cabinets in the exact color of your dreams come to life with the WF Cabinetry YourColor™ Custom Paint Program. Our custom color paint program lets you customize your cabinets to the precise color you envision. WF Cabinetry offers Sherwin-Williams® and Benjamin Moore® paint colors as a finish option.

YourColor™

Custom Paint Matching Program

FIND YOUR PAINT COLOR

Sherwin-Williams® - You can specify a color from a Sherwin-Williams Fan Deck, paint swatch, or use the Sherwin-Williams ColorSnap® app. Use the ColorSnap® Visualizer app on your computer or smartphone to capture the color of anything and convert it into its corresponding Sherwin-Williams® paint color. Try it on photos of your home for added confidence in your selection. WF Cabinetry will even make an optional sample door for your review (fee applies).

Benjamin Moore® - Specify a color from a Benjamin Moore fan deck or paint swatch.

SELECT YOUR DOOR STYLE AND WOOD SPECIES

Choose the maple or oak door style that fits your decor.

CREATE A STYLE OF YOUR OWN

Once you approve your paint color selection, place your cabinetry order. You will receive your cabinets ready for installation.
